MEDIA RELEASE

October 26, 1988

PEOPLE IN EDUCATION -- UNIVERSITY OF MONTANA

Biological sciences Professor Fred W. Allendorf will study the genetics of rainbow trout at the Ennis National Fish Hatchery with \$1,750 from the U.S. Fish and Wildlife Service.

Sara J. Johnson, a lecturer in the Department of Communication Sciences and Disorders, was appointed in September by Gov. Ted Schwinden to a three-year term on the five-member State Board of Speech Pathologists and Audiologists.

Forestry Professor Joel Meier received the Garrett G. Eppley Alumni Recognition Award from Indiana University's Department of Recreation and Park Administration. The award, which he received Oct. 9 in Indianapolis, Ind., recognizes his service and contributions to the recreation-management profession.

Thomas W. North, an assistant professor of biological sciences, will research "Feline Retrovirus Model for AIDS Chemotherapy" with \$148,551 from the U.S. Department of Health and Human Services.

Forestry Professor Robert D. Pfister will continue collecting riparian habitat samples for the Montana Riparian Association with \$5,000.

Donald F. Potts, an associate professor of forestry, will work on three projects with \$6,503 from the Flathead Basin
